

Relevant contextual information about your school and School Development Plan:

- K-6 school with a diverse population including access and experience with technology.
- Specialized class setting – Enhance Educational Support (EES) program

Relevant evidence and data that informs your Digital Citizenship Plan:

- As early learners, our students are new to the online world, and require support in understanding the permanence of a digital footprint
- Our learners require support to understand the risk one takes when sharing private information
- As our students are learning to be respectful citizens in person, they are also exploring the need for the same in the online world

School Digital Citizenship Plan						Progress		
Long Term Goal (e.g. spanning 8-10 months)	Competency (may be chosen from the CBE DC Competencies)	Short Term Goals (in support of the long term goal)	Outcomes	Activities & Resources	Measures	November	January	June
Long term goal #1 Learners will understand the importance of acting with integrity online when interacting with peers	Respectful While online, I am respectful and inclusive in my words and actions	Short term goal 1 Students will understand what a digital footprint is.	Students will be respectful with all persons in online interactions.	Review resources on Digital Citizenship Insite Pages	Reported incidents of online behaviour			
		Short term goal 2 Students will interact online in a respectful manner	Students will experience less conflict at school as a result of their respectful online behaviours.	Targeted lessons identifying respectful online behaviours	Number of school-based incidents stemming from online interactions			

<b>Long term goal #2</b> Learners will understand the importance of protecting online information and apply appropriate strategies	<b>Safe</b> I know how to protect my personal information online	<b>Short term goal 1</b> Students will understand the importance of creating a complex password that is difficult to guess	Students will create passwords appropriate to their developmental level	Targeted lessons on creating complex passwords	All students will have a secure password to access CBE network			
		<b>Short term goal 2</b> Students will understand how to identify private information that should not be shared with others	Students will keep their passwords private and keep password hints in a secure location	Students and staff will learn how to reset passwords using the Student Change Password Hub or Student Account Tool	All students will keep their password private and know how to rest their passwords, as needed			

**Next Steps & Focuses for the Coming School Year**

- Continue to review and implement ways in which students are being safe and respectful online.
- Determine successes on the currently established goals and re-evaluate based on staff and student need.
